CONTENTS OF VOLUME 42

Adams, G. A. See Creech, H. J., 593; Kates, M., 461.
Adams, G. A. and **Martin, S. M.** Extracellular polysaccharides of *Serratia marcescens*, 1403.
Ahmed, M. U. and **Cook, F. S.** Separation of an α-galactosidase from watermelon seeds, 605.
Ainsworth, L., Carter, A. L., and **Common, R. H.** Urinary conversion products of 16-epiestriol-16-C^{14} in the domestic fowl, 521.
Aleem, M. I. H., Lees, H., and **Lyric, R.** Ammonium oxidation by cell-free extracts of *Aspergillus wentii*, 989.
Aoki, N. See Seegers, W. H., 229.
Baer, E. and **Rao, G. V.** Synthesis of phospholipid metabolites. L-α-Glycerylphosphoryl-2-amino-2-methylpropanol, 1547.
Baker, D. G., Ghys, R., Coles, D., and **Christie, S.** The spectrum of plasma esterase activity in young, old, and cold-acclimated rats, 1711.
Barlow, J. S. Fatty acids in some insect and spider fats, 1365.
Barthwal, J. P. See Woodford, V. R., 889.
Bartley, W. See Tustanoff, E. R., 651.
Bather, R. See Webb, S. J., 157.
Bather, R., Sebastian, I., and **Webb, S. J.** Inositol and the protection of cells. II. The release of nucleic acids from normal and malignant cells, 167.
Baumber, J. and **Denyes, A.** Acetate-1-C^{14} utilization by brown fat from hamsters in cold exposure and hibernation, 1397.
Beare, J. L. and **Kates, M.** The deposition of linoleic acid in rats fed corn oil, 1477.
Bergh, A. K., Webb, S. J., and **McArthur, C. S.** Bacterial lipids and the Gram staining reaction, 1141.
Berlinguet, L. See Charbonneau, R., 1325; Srivastava, U., 1301.
Berlinguet, L. and **Charbonneau, R.** A study on the "in vitro" synthesis of citrulline. Part I. Effect of some *N*-alkyl derivatives of aspartic acid, 1317.
Beveridge, J. M. R. See Gordon, B. A., 897; Haust, H. L., 251, 265; Lazier, B. B., 1809.
Beveridge, J. M. R., Jagannathan, S. N., and **Connell, W. F.** The effect of the type and amount of dietary fat on the level of plasma triglycerides in human subjects in the post-absorptive state, 999.
Bhargava, K. P. See Pant, M. C., 1114.
Bide, R. W. and **Collier, H. B.** A note on the methemoglobin reductase activity of rabbit erythrocytes, 669.
Biely, J. See March, B. E., 121, 333, 341.
Bilinski, E. and **Jonas, R. E. E.** Utilization of lipids by fish. II. Fatty acid oxidation by a particulate fraction from lateral line muscle, 345.
Bishop, D. M. See Ellis, N. J., 1225.
Bitensky, M. W. See Yielding, K. L., 727.
Blumenstein, J. Studies in phospholipid metabolism. I. Effect of guanidoacetic acid and choline on liver phospholipids, 1183.
Bouchard, J. P. See Cook, R. A., 859.
Bowman, B. See Kimball, A. P., 1753.
Bowman, D. See Trew, J. A., 667.
Boyko, J. and **Fraser, M. J.** Some properties of rat liver glycyl-RNA synthetase, 1677.
Boylen, J. B., Horne, H. H., and **Johnson, W. J.** Teratogenic effects of thalidomide and its metabolites on the developing chick embryo, 35.
Bressani, R., Braham, J. E., Elías, L. G., and **de Zaghi, S. G.** All-vegetable protein mixtures for human feeding. XII. Biochemical observations on rats fed INCAP Vegetable Mixture 9 and animal proteins, 631.
Breuninger, E. R. See Creech, H. J., 593.
Bridger, W. A. See Cohen, L. H., 715.
Brown, F. C. Nicotinamide adenine dinucleotide levels in rat brain, 489.
Butt, W. D. and **Lees, H.** The biochemistry of the nitrifying organisms. Part 8. The effects of oxygen tension, nitrite concentration, and cyanate concentration on nitrite oxidation by *Nitrobacter*, 1217.
Callahan, P. X. See Neelin, J. M., 1743.
Carroll, K. K. Acetate incorporation into cholesterol and fatty acids by liver slices from rats fed commercial or semisynthetic diets. The effect of dietary fats, 71.
Acetate incorporation into cholesterol and fatty acids by livers of fetal, suckling, and weaned rats, 79.
Carter, A. L. See Ainsworth, L., 521.
Chandrasekhar, B. S. See Parthasarathy, H. N., 377.

Charbonneau, R. See Berlinguet, L., 1317.
Charbonneau, R. and **Berlinguet, L.** A study on the "in vitro" synthesis of citrulline. Part II. Effect of glutamic acid and derivatives in the presence of fumaric acid, 1325.
Chaudhary, K. D., Moorjani, S., and **Lemonde, A.** Kinetic studies on acid phosphatase in *Tribolium confusum* Duval, 1769.
Cheatum, S. G. See Warren, J. C., 143.
Chisholm, M. D. and **Wetter, L. R.** Biosynthesis of mustard oil glucosides. IV. The administration of methionine-C^{14} and related compounds to horseradish, 1033.
Christie, S. See Baker, D. G., 1711.
Clevenger, S. A new anthocyanidin in *Impatiens*, 154.
Cohen, S. L. Potentiation of glucuronidase hydrolysis of sodium pregnanediol glucuronidate, 127.
Cohen, L. H. and **Bridger, W. A.** Studies of the mechanism of action of adenylosuccinase, 715.
Cohen, J. J., Myers, J., Rose, B., and **Goodfriend, L.** Papain-produced fragments of horse antitoxin. Physicochemical and immunological properties, 1787.
Cole, E. R. See Seegers, W. H., 229, 359.
Cole, E. R., Koppel, J. L., and **Olwin, J. H.** Interaction of bovine autoprothrombin C with phospholipids and divalent cations, 1595.
Coles, D. See Baker, D. G., 1711.
Collier, H. B. A punched card for biochemical references, 571.
See also Bide, R. W., 669.
Colvin, J. R. See Webb, T. E., 59.
Comer, A. G. See Tarr, H. L. A., 1527.
Common, R. H. See Ainsworth, L., 521; Hertelendy, F., 1177; Mok, C.-C., 871, 1119.
Connell, G. E. See Freedman, M. H., 1065, 1815.
Connell, W. F. See Beveridge, J. M. R., 999.
Cook, C. A. M. See Webb, S. J., 157.
Cook, F. S. See Ahmed, M. U., 605.
Cook, W. H. See Radomski, M. W., 395, 1203.
Cook, R. A., Bouchard, J. P., and **Fraser, M. J.** The biosynthesis of amino acid acceptor RNA, 859.
Cossins, E. A. The utilization of carbon-1 compounds by plants. I. The metabolism of methanol-C^{14} and its role in amino acid biosynthesis, 1793.
Creech, H. J., Breuninger, E. R., and **Adams, G. A.** Polysaccharide–peptide complexes from *Serratia marcescens* cells, 593.
Creek, R. O. See McShan, W. H., 841.
Daniel, V. A. See Parthasarathy, H. N., 385.
Darcel, C. le Q. See Merriman, M., 293.
David, H. and **Rossiter, R. J.** Phospholipids of Ehrlich ascites tumor, 299.
Davis, E. J. and **Quastel, J. H.** The effects of short-chain fatty acids and starvation on the metabolism of glucose and lactate by the perfused guinea pig heart, 1605.
deFreitas, A. S. W. and **Depocas, F.** Quantitative isolation and assay of neutral glyceride glycerol and phosphoglyceride glycerol, 195.
Denstedt, O. F. See Loiselle, J.-M., 1, 21.
Denyes, A. See Baumber, J., 1397.
Depocas, F. See deFreitas, A. S. W., 195.
DeWolfe-Slade, D. See Myers, D. K., 529.
de Zaghi, S. G. See Bressani, R., 631.
Dixon, G. H. and **Schachter, H.** The chemical modification of chymotrypsin, 695.
Doraiswamy, T. R. See Parthasarathy, H. N., 377, 385.
Dow, D. S. Influences of thyroxine and insulin on the turnover and fate of high-energy phosphate, 777.
Driedger, A. See Johnson, L. D., 795.
Duma, Z. See French, R. C., 111.
Dziubalo, S. See Vittorio, P. V., 1233.
Ecobichon, D. J. and **Kalow, W.** Properties and classification of the soluble esterases of human kidney, 277.
El-Basyouni, S. and **Towers, G. H. N.** The phenolic acids in wheat. I. Changes during growth and development, 203.
The phenolic acids in wheat. II. Natural occurrence of orthoferulic acid (2-hydroxy-3-methoxycinnamic acid), 493.
Elías, L. G. See Bressani, R., 631.
Ellis, N. J. and **Bishop, D. M.** Congo red as an indicator for magnesium. I. A comparison of serum values using congo red and titan yellow, 1225.

Evans, J. R. Cellular transport of long chain fatty acids, 955.
Fedoroff, S. and **Woodford, V. R.** Respiration of strain L cells and of their variant, L_E cells, 513.
Finlayson, A. J. The compositions of some peptides produced by an enzymic hydrolysis of wheat gliadin, 1133.
See also McConnell, W. B., 187; Reisener, H., 327.
Fraser, M. J. Introduction to symposium on the relation of protein structure to function, 675.
See also Boyko, J., 1677; Cook, R. A., 859.
Freedman, M. H. and **Connell, G. E.** The heterogeneity of gamma-globulin in post-exercise urine, 1065.
Monomer and dimer forms of gamma-globulin polypeptides in normal urine, 1815.
Freeman, H. C. See Idler, D. R., 211.
Freeman, K. B. Some observations on ribonucleases from ryegrass, 1099.
French, R. C. and **Duma, Z.** Studies on protein metabolism of the cornea. 2. The incorporation of C^{14}-labeled amino acids into components of the rabbit cornea, 111.
French, I. W. and **Manery, J. F.** The effect of aldosterone on electrolytes in muscle, kidney cortex, and serum, 1459.
Fukui, S. and **Hochster, R. M.** Carbohydrate inhibitors of sucrose uptake by resting cells of *Agrobacterium tumefaciens*, 1023.
Gamborg, O. L. and **Simpson, F. J.** Preparation of prephenic acid and its conversion to phenylalanine and tyrosine by plant enzymes, 583.
Ghys, R. See Baker, D. G., 1711.
Gianetto, R. The intracellular distribution of rat-liver β-glucuronidase, 499.
Giroud, C. J. P. See Stachenko, J., 1275, 1777.
Goodfriend, L. See Cohen, J. J., 1787.
Gordon, B. A., Kuksis, A., and **Beveridge, J. M. R.** The effect of dietary fat on bile acid metabolism in man, 897.
Gornall, A. G. See Kandel, M., 1833.
Graham, J. E. See Bressani, R., 631.
Grice, H. C. See Middleton, E. J., 353.
Gutman, M. and Rimon, A. Studies on the activation of plasminogen. II. On the nature of the proactivator, 1339.
Habeeb, A. F. S. A. Studies on ϵ-prototoxin of *Clostridium perfringens* type D, 545.
Hagen, P.-O. See Kates, M., 481.
Halpenny, G. W. See Neufeld, A. H., 1499.
Harmison, C. R. See Seegers, W. H., 229, 359.
Haust, H. L. and **Beveridge, J. M. R.** The differential-photometric estimation of coprostanol in the presence of cholesterol, sitosterol, and other 3β-hydroxysterols, 251.
Differential-photometric estimation of cholesterol and sitosterol in the presence of certain other 3β-hydroxysterols, 265.
Heacock, R. A. and **Mahon, M. E.** Conjugated hydroxyskatoles in human urine, 813.
Heick, H. M. C. and **Stewart, H. B.** The occurrence of oxomalonate in *Lipomyces*, 1361.
Henderson, M. J. The uptake of glucose into cells and the role of insulin in glucose transport, 933.
Hertelendy, F. and **Common, R. H.** Isolation of crystalline 16-epiestriol from hen urine, 1177.
Hochster, R. M. See Fukui, S., 1023.
Horne, H. H. See Boylen, J. B., 35.
Hurst, R. O. The determination of nucleotide phosphorus with a stannous chloride – hydrazine sulphate reagent, 287.
Idler, D. R. See Tamura, T., 1331.
Idler, D. R., Freeman, H. C., and **Truscott, B.** Steroid hormones in the plasma of spawned Atlantic salmon (*Salmo salar*) and a comparison of their determination by chemical and biological assay methods, 211.
Jagannathan, S. N. The determination of plasma triglycerides, 566.
